SUMMARY

Hi, I'm Chinju Biju , a tech enthusiast with a knack for coding and problem-solving. As a Computer Science student, I bring a passion for turning ideas into reality through innovative solutions. Eager to contribute my skills and adaptability to a dynamic team ready to make waves in the tech world.

EXPERIENCE

Computer Science Intern

UL Cyber Park, Calicut

05/2023 - 05/2023, Calicut, Kerala

- Learning the fundamentals of Linux , Cloud and Devops.
- Worked with end users to determine their information needs
- Assisted senior developers to create efficient, scalable and user-friendly mobile applications

PROJECTS

Intellecta

02/2024 - 06/2024

- Intellecta is a website for matching people with similar academic interests. Users can create profiles highlighting their academic preferences and interests, enabling seamless connection with peers who share similar passions. The platform features a comprehensive events calendar, showcasing hackathons, workshops, and seminars hosted by various engineering colleges. Through the platform, users can form peer groups for sharing ideas. Overall by facilitating meaningful connections and fostering a culture of knowledge exchange, our platform empowers students to enhance their academic journey.
- Technologies used: NextJs, Tailwind, Typescript, React, Firebase.

EDUCATION

B.Tech Computer Science
